ONE COPY—ONE CENT.

**"You Know What I Mean."**

There's another crazy phrase which I think should be canned— You know what I mean. One hears it repeated on every hand— You know what I mean. This meaningless tag is affected by people Who tell you a something as plain as a steely, And add, as if fearful you won't understand, "You know what I mean."

In a "rapid advancement class" in Boston, composed of the 36 brightest pupils of the 5th and 6th grades, and placed under the direction of one teacher from entrance to completion of the course, the children finished the work of the 6th, 7th and 8th grades in a year and a half. Only one hour a day was allowed these pupils for outside study.

## THE FIRST STEP.

The loss in net earnings of 478 railroads for February, 1914, was \$19,895,057, as compared with February a year ago. It was the most severe loss we have ever known. It was due largely to a falling off in transportation of American products because of the lack of demand and this after five months of the Democratic Free-Trade Tariff, the "first step" toward a complete abolishment of Protection. Shall we take another step or retrace the last?—Bay City (Mich.) National Farmer.

## ENTER THE PSYCHOLOGICAL VACATION

We are living in the day of extraordinary psychological phenomena. Psychology, a science which once spread its wings and soared aloft, higher, higher than the eagle, has been tamed very much as Franklin tamed the lightning. Once a rarity and a mystery, it is now doing yeoman service as a trained utilitarian commodity.

It is recognized, too, as a great first cause. No less important and profound a thinker than President Wilson has given this science vast material recognition. It is no longer a high-brow luxury, but a treasure of the common people. It has been made to cover and explain a nation-wide industrial condition. When a thing that shouldn't be, is why we apply the psychological test; presto, it isn't. It's the simplest thing the world. And it never fails. It cannot fail, because it is psychological.

Is anything wrong in your affairs? Do you imagine you are improvers? Do you want to send the family away for a vacation in the mountains? Do you feel that you owe it to yourself to seek a period of recuperation away from the routine and the grind which have held you plodding for a year? And feeling thus do you feel, too, that your financial affairs will not permit the desired benefit?

Is that all the trouble? Invoke psychology. If you are poor there's no reason for it, and, therefore, you are not. You just think you are. Imagine you're alright, and alright you are. Do you want to go to White Sulphur or to the coast? Then do it. Get your psychology on straight, and it will all come to you.—Huntington Herald-Dispatch.

President Wilson's theory that business depression is only "psychological," is not only not psychological, it is not even logical.

Lawrence Chamberlain of New York, speaking at a dinner given by the Cincinnati bankers, said in reference to the anti-trust legislation before Congress: "The great evil of the Administration program is the great evil of much recent American legislation; it is paternalistic; and in the long run it will give us instead of a new or an enlarged freedom, the bondage of governmental ownership or control. I can conceive of no greater calamity to succeeding generations than the necessity of industrial service under governmental supervision such as that offered young men now in the postal system. Say what you may of the necessity, municipal ownership and Government ownership throttle initiative and smother ambition. It is no disgrace to be a nation of shopkeepers, but it would be a calamity to become a nation of clerks."

The president of the American Beet Sugar Company thinks that the force of public opinion will compel the restoration of sugar tariff before long. He has more confidence in the willingness of the President and his party to listen to the voice of the people than the facts will justify. There is not the least ground to believe that public opinion will have any such effect. But the condition of the Treasury may have some effect. There is a rapidly growing deficit, which enormous appropriations and war preparations threaten to make very serious. Only \$12,500,000 of the \$50,000,000 revenue from the sugar tariff has been lost so far. But it will all go in time and the income tax promises to be a great disappointment because incomes have been enormously reduced as a result of the depression due to the tariff. That is where the pinch will be felt. To issue bonds in a time of peace will not be more popular now than it was in the Cleveland administration, when the voters almost wiped the Democratic party off the map. To obviate, if possible, another such an experience may lead to a return to the sugar duty, but we do not think so. The hope of aid from the Roosevelt party will encourage the Democrats to continue in that wild and destructive course.

AT THE BANQUET.

Brother Cusmo—"How is this? There is no wine on the menu, but half a dozen glasses are at each place."

Brother Sankem—"The menu is to take home to our wives."

Judge—"Didn't I tell you the last time you were here that I never wanted you to come before me again?"

Prisoner—"Yes, sir. But I couldn't make the policeman believe it."

## CORRESPONDENCE

### SPRINGDALE.

At the close of the Sunday School at the school house last Sunday the Superintendent announced that as Christianity and Patriotism were twin sisters and ever walked hand in hand, a celebration of Flag Day was in order. Flags were then displayed and an excellent program was carried out in song and story. The patriotic airs were sung and patriotic recitations given and excellent addresses were made by Messrs. E. J. Cobb and C. G. DeGuzman, and Mrs. D. W. Hook. The meaning of our flag, our grand Old Glory, its history and its destiny were ably discussed. The entire afternoon was consumed in the exercises. The officers of the Sunday School were delighted at the success of two lessons well taught. First, that destiny was ably discussed. Then, second, that our flag was worthy of reverence and respect.

Miss Mary Nellie Royce left this week for an extended visit with relatives in Cincinnati, Covington and Lexington. Mr. I. S. Mason of Louisville is here visiting, the guest of Mr. C. D. DeGuzman. The series of meetings at Bethany conducted by Evangelical Adams of Bethany continues to draw large crowds each evening and there have been several additions to the church.

Blackberries are said to be promising, if it will only rain soon.

These rules will have the effect of law. They will include the inspection and disinfecting of cars and stock yards, dispositions of carcasses and detention of infected animals.

## THE SIMPLE LIFE.

I have grown to believe that the one thing worth aiming at is simplicity of heart and life; that one's relations with others should be direct and not diplomatic; that power leaves a bitter taste in the mouth; that meanness and hardness and coldness are the unforgivable sins; that pleasure exists not in virtue of material conditions; but in the joyous heart that the world is a very interesting and beautiful place; and that congenial labor is the secret of happiness.—A. C. Benson.

## IMMENSE BLUE GRASS SEED CROP

Wichester, Ky., June 17.—Thomas W. Brock will finish the gathering of his grass seed crop this week, and the yield will be in excess of 10,000 bushels. The crop was sold for August 1 delivery at 50 cents. J. Warlick Gay will have a crop of about 10,000 bushels gathered by the close of the week and this together with a crop left over from last year, will give him probably the largest holding of seed of any farmer in the county.

It is predicted that the price for seed delivery will go from 50 to 60 and 75 cents, as the crop is of good quality, and up to the average in quantity. One of the largest yields to the acre in the county is that on the Prowitt, Cockrell and Hen farms on the Mt. Sterling pike, which will average 15 to 18 bushels per acre.

## STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

94 BILLS PASSED

By Last Legislature and All Because Laws Monday—Gov. McCrory Didn't Veto a Single Bill.

Frankfort, Ky., June 15.—Practically the entire work of the 1914 session of the Legislature became complete today. One second after midnight all the bills passed at the last Legislature became laws. Governor McCrory did not veto a bill.

This Greene-Gleim insurance law, which was one of the most important bills passed at the Legislature, did not become a law, because it was declared unconstitutional by Circuit Judge R. L. Stout before it went into effect. His action has brought up a new point in Kentucky, and that is, can a bill passed by the Legislature be declared unconstitutional before it becomes a law.

The first county unit law since the new constitution was adopted in 1890 became effective today. As a result there will be an election in every county in the State almost this fall to take the sense of the voters as to whether or not intoxicating liquors shall be sold in the county. Petitions will be circulated within a week in Montgomery, Bourbon, Anderson, Fayette, Franklin, Scott, Shelby, Clark and Mason, to determine whether liquor shall be sold legally in those counties in the future. The elections will be held in September.

There was a total of 94 bills passed, and 90 new laws went into effect today. Four bills carried emergency clauses. It is claimed that in as much as the action by the Court was taken on the Greene-Gleim bill before it became a law that it is effective today.

Only one tenth of the bills introduced in the Legislature became laws.

Bill Curtis says married life is the only life. You are right in your conclusion. Bill has been married less than six months.

The procedure of courtship is always the same. A man never attempts to kiss a woman until he has first tried to hold her hand.

Iron ore exists in almost every Chinese province, but in only a few districts is it mined on an extensive scale.

The trouble with the cheerful giver is that, as a rule, he has nothing to give, never screams.

The chief nuisance of business is that of transacting it with a man you have to watch. Wages are so good in this country that a man who doesn't like it easily can save enough money to get out of it.

Double Stamps! Saturday, June 20th

No Sale Goods Will Be Charged, Exchanged or Sent Approval

## REBUILDING SALE STARTS SATURDAY, JUNE 20th, 1914

The one great object of this sale is to dispose of all goods on hand as we do not want to move a single piece of merchandise; therefore, we will demonstrate to the public our value giving by creating the bargain feast which will long be remembered by the thousands of people of Maysville who already appreciate our way of merchandising, and will follow us to our new store. Don't forget that the sale includes all heavy, as well as medium goods. We appreciate the fact that you are a judge of merchandise, and for that reason we ask you to read our prices and then come to the sale, expecting the grandest bargains you ever bought, and we guarantee you'll not away disappointed.

It is our object to demonstrate in this sale the power of price making and value giving, as we want the public to fully realize that we are not closing out or going out of business, but on the contrary we are compelled double our capacity in order to take care of our many new, as well as old customers. When we say removal sale we mean it; the Merz reputation is such that we will not permit it to be misunderstood. This sale will consist of merchandise that is recognized as the highest standard goods.

And all this at such a price that you will not be the recipient of such an inducement again.

We mailed quite a few letters, but if you did not receive one, you are entitled to the special campaign price.

Call, write or phone either Electric Shop or Maysville Gas Company and we will send one of our salesmen who will explain the proposition in full, give you prices on your wiring completed, explain as far as possible how it will be done and last, but not least, how much you will have to pay each month on the installment basis and you will be surprised at the smallness of these payments, **YOU WILL HAVE 18 MONTHS, 1 1/2 YEARS TO PAY FOR THE INSTALLATION.**

You can call at the Electric Shop and see the Fixtures included in the different propositions and should you desire personal selection you have a nice display of fixtures to pick from.

Don't let this opportunity slip by. You will regret it if you do. Get busy now and get in line with those who have already taken advantage of this extraordinary inducement. A chance that may never come again. A word to the wise is sufficient.

## IRONS

Too good a chance to turn down.

We have purchased for this campaign for the benefit of old customers and the new customers, if they come in in time, a consignment of Irons. Our proposition which you will find is the best chance you ever had to buy an iron and never miss paying for it is as follows:

The price on the Barbed or Black base is \$3.50, on mickle finished, \$3.75, may be divided into 7 equal payments or 50c or 75c down and 50c per month or 6 months in which to pay for it. How do you know you will like the iron? Why that is the best feature of our proposition. Upon your request we will send you an Iron on 10 days' trial absolutely free. Isn't this a good proposition? The only question that can arise in your mind is can you afford to turn it down. **CALL AT ONCE FOR AN IRON BEFORE THE STOCK IS EXHAUSTED.**

## FIXTURES

During this campaign the Electric Shop will make a reduction of 10 per cent. on any and all fixtures on display, off their regular retail price and as their prices are very reasonable you can readily see where you can pocket some money—\$1.00 on \$10.00—\$10.00 on \$100.00, and so on.

Give them a call and inspect their line before you buy. Save that difference. Get quality and see what you are buying.

He fired a shot at them, and the men took to their heels, one out Lexington street, the other over Mr. W. F. Hill's back fence.
